MFM 34/12 Tub

This high protein, energy, concentrated vitamin and mineral package with *Dehydrated Aspergillus Oryzae Fermentation Extract* is specifically formulated for use on growing and mature beef cattle to complement roughage (grass hay or dry grass pasture) and/or light grain. Provide plenty of drinking water and free choice salt. **This feed contains added selenium at 4.5 mg/kg.**

GUARANTEED ANALYSIS:

Crude Protein, min	-----	34.00%
(this includes not more than 12% equivalent protein from a not protein nitrogen.)		
Crude Fat, min	-----	-5.00%
Crude Fiber, max	-----	-2.00%
Calcium (Ca), max	-----	3.50%
Calcium (Ca), min	-----	2.00%
Phosphorus (P), min	-----	-1.00%
Salt (NaCl), max (none added)	---	0.00%
Magnesium (Mg), min	-----	-1.00%
Potassium (K), min	-----	-3.00%
Copper (Cu), min	-----	310 ppm
Iodine (I), min	-----	30 ppm
Manganese (Mn), min	-----	1000 ppm
Selenium (Se), min	-----	4.5 ppm
Cobalt (Co), min	-----	-5 ppm
Zinc (Zn), min	-----	-1000 ppm
Vitamin A, min.	-----	100,000 IU/lb
Vitamin D, min.	-----	-20,000 IU/lb
Vitamin E. min.	-----	100 IU/lb

INGREDIENTS:

Molasses Products, Plant Protein Products, Urea, Monocalcium Phosphate, Calcium Carbonate, Magnesium Oxide, Dehydrated Aspergillus Oryzae Fermentation Extract, Vegetable Oil, Manganous Oxide, Zinc Oxide, Copper Sulfate, Cobalt Sulfate, Ethylenediamine Dihydriodide, Vitamin A acetate, Cholecalciferol, (Vitamin D supplement), Di-alphatocopheryl acetate (Vitamin E supplement), Sodium Selenite and Ethoxyquin (a preservative).

FEEDING RECOMMENDATIONS:

Provide one tub for every 25-35 head of cattle. Average consumption should be 8-16 ounces or 1/2 - 1 lb. per head per day. Product should be available continuously. Locate tubs near a source of water, salt or loafing area. On open range locate tubs where animals congregate, near gaps or along trails. Variables in consumption could be temperature, humidity, type of animal, animal size, stage of production and animal health. The quality, source, availability of roughage and/or light grain may also affect consumption. Measure product upon first introduction to figure consumption. Tub holds approximately 18 lb. per inch. Increase consumption by decreasing number of head or adding another tub. To reduce consumption, increase number of head, or move tubs away from congregating areas. If this fails, remove a tub. Always provide a fresh, clean source of water and free choice salt.
